

3 collect all predefined relative indications and
4 responses during the exposure interval; and
5 match a first one of the orders to an optimal one of
6 the responses that is determined in accordance with price and
7 quantity specified in the optimal one of the responses.

1 63. The method of claim 59 wherein the products are
2 financial instruments.

1 64. A computer program product method of auctioning
2 securities comprises instructions to cause a computer to:
3 receive an order for a security, the order specifying a
4 condition that seeks a specific minimum relative price
5 improvement and an exposure time;
6 receive a response to the order, the response
7 specifying a price, which can be a relative or fixed price or a
8 contra-side order that may have a condition seeking a relative
9 price improvement, and quantity; and
10 match the order with the response in accordance with
11 the exposure time specified by the order.

REMARKS

Please examine the above application in view of the newly added claims.

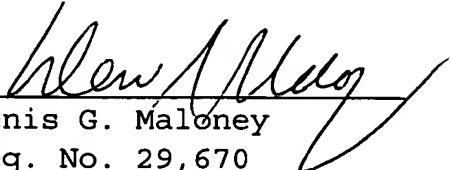

A check in the amount of \$744.00 is enclosed to cover the cost of excess claims.

Please apply any additional charges or credits to Deposit Account No. 06-1050.

Respectfully submitted,

Date:
